CRITICAL REVIEW - "Dead End"

The person who named this play DEAD END, gave too much credit to the beginning and middle. Before I start, I want my 2 dollars back and an official apology from the Fine Arts Department. Dave Stiver, Mike Earnest, and Luke Grotano, along with a handful of others, should be commended for trying to bring life to such trashy material. In the theatrical War of Talent, Mary Beth Evans was MIA (Missing In Acting). I'm sure Mr. Madelena and the Theatre department put six weeks of hard work into this play. They built a terrific set and the effects record didn't have one scratch in it.

Frankly, this was the worst play I've ever seen come out of H. B. The only plot in the play was the one layed out for "Baby Face" Martin. The play was climaxed by the sitting ovation at its end. And you wonder why we're 6th place in trash pickup competition. Madelena should be able to keep his job with a pay cut and longer hours. As for the students, they have their whole lives ahead of them.

SPORTS (Besides Denise Farrow)

Well, boys, there is a good amount of news today. Coach Terranova informed us that the stench that usually inhabits the Boys Locker Room will be gone by Monday. Coach Terranova also informed us that Coach Chilcott will be transferred to Edison Sunday afternoon.

This story today concerns the football team. Yes, as hard as it is to believe, in just a few short months you can see the blood type of your favorite quarterback smeared all over Sheue field. Even the try-outs have already begun. Coach Van Hoorbeck told the Lowlight staff that the first applicant was perfect. "He was 6foot 2 inches and had an IQ of 13. The ideal player, but", continued V.H., "I felt bad telling him that the Principal can't play on the team."

LETTER TO THE EDITOR

From Larry Lucas

I did not say any of those things (see issue 1), and besides you promised not to print them. Just because I have a prehensile tail and my IQ is equal to the number of my fingers and toes, doesn't mean I'm not smart enough to be Principal. My clothes are not tacky, but rather have no color or design coordination. As for my intelligence, there is nothing for you to insult.

ANOTHER LETTER TO THE EDITOR

As an unidentified member of the "Highlights" staff, I am extremely annoyed with your publication. How dare you defile the fine name of our paper with such trash garbage and smut. This is disgusting (Though I did enjoy Beat up the Bald).

I am sure my opinion is representative of the majority of students at this school of lower learning. I find your nonsense put into print very insulting, and I hope you jerks are apprehended. (No I don't mean Lucas and Vallercamp I mean the Editors.)

"We don't care..." - Ed.
